

CENTER OF EXCELLENCE IN BODY CONTOURING

In partnership with key opinion leaders and industry professionals, SRC developed the Center of Excellence in Body Contouring (COEBC) program. The COEBC program identifies surgeons and facilities who provide excellent post-bariatric plastic surgery body contouring care and are dedicated to continuously improving healthcare quality and patient safety.

PROGRAM REQUIREMENTS

1. INSTITUTIONAL COMMITMENT TO EXCELLENCE

The applicant facility demonstrates a commitment to excellence in post-bariatric plastic surgery body contouring from the highest levels of its medical staff and administration and includes having specialty-specific credentialing and privileging guidelines in plastic surgery.

2. SURGICAL EXPERIENCE

The applicant facility performs at least 50 body contouring procedures annually. Each applicant surgeon performs at least 25 procedures annually and has served as the primary surgeon for at least 75 body contouring procedures in their lifetime.

3. PHYSICIAN PROGRAM DIRECTOR

The applicant facility must appoint a Physician Program Director for the Center of Excellence in Body Contouring (COEBC) program.

4. CONSULTATIVE SERVICES

The applicant facility must have a full complement of consultative services required for the routine and intensive care of body contouring surgery patients and their potential complications including: anesthesiologist or CRNA, ACLS-certified physician or team, critical care specialist, intensivist, vascular surgeon, infectious disease specialist and wound care specialist.

5. EQUIPMENT AND INSTRUMENTS

The applicant facility must maintain a full line of equipment and surgical instruments to provide appropriate perioperative care for body contouring patients. If the facility does not have an emergency department or intensive care unit, it must have equipment, such as ventilators and hemodynamic monitoring equipment, necessary to resuscitate and stabilize critically ill patients until they can be transferred to another facility.

6. SURGEON DEDICATION AND QUALIFIED CALL COVERAGE

Each applicant surgeon has privileges in body contouring surgery at the applicant facility, is board-certified or an active candidate for board certification in their surgical specialty and has qualified call coverage. Each applicant completes at least 12 hours of CME focused on body contouring surgery every three years.

7. CLINICAL PATHWAYS AND STANDARDIZED OPERATING PROCEDURES

The applicant formally develops and implements clinical pathways that facilitate the standardization of perioperative care for body contouring procedures.

8. SURGICAL TEAM AND SUPPORT STAFF

The applicant facility employs a program coordinator, nurses and/or physician extenders and an operative team trained to care for body contouring surgery patients and provides ongoing, regularly scheduled staff education in-services.

9. PATIENT EDUCATION

The facility and each applicant surgeon must provide all body contouring patients with comprehensive preoperative patient education including their body contouring options and an individualized discussion of projected risks and have a process for obtaining informed surgical consent and selecting procedures that are most appropriate for each patient's condition.

10. CONTINUOUS QUALITY ASSESSMENT

All applicants must collect outcomes data on all patients who undergo body contouring procedures in SRC's Outcomes Database (or a similar qualifying database).

This is a summarized list of program requirements which is subject to change. For additional information, please contact SRC by emailing businessdevelopment@surgicalreview.org or calling 919.614.2623.
