

MASTER SURGEON IN COMPLEX ENDOMETRIOSIS CARE

In partnership with key opinion leaders and industry professionals, SRC developed the Master Surgeon in Complex Endometriosis Care (MSCEC) program. The MSCEC program identifies surgeons who provide excellent complex endometriosis care and are dedicated to continuously improving healthcare quality and patient safety.

PROGRAM REQUIREMENTS

1. SURGICAL EXPERIENCE

The applicant surgeon performs at least 120 qualifying surgeries for the treatment of complex endometriosis annually with at least 40 cases being complex. The applicant has served as the primary surgeon for at least 175 qualifying surgeries in their lifetime.

2. EQUIPMENT AND INSTRUMENTS

The applicant surgeon performs surgeries for the treatment of complex endometriosis in a facility that has a full line of equipment and surgical instruments to provide appropriate perioperative care for their patients. The applicant's facility must have documented training for appropriate staff in the safe operation of this equipment.

3. SURGEON DEDICATION

The applicant surgeon has privileges in the field of complex endometriosis care at the facility, is board-certified or an active candidate for board certification in gynecology and/or general surgery and has call coverage. Each applicant completes at least 24 hours of CME focused on abdominal and/or pelvic surgery every three years.

4. CLINICAL PATHWAYS AND STANDARDIZED OPERATING PROCEDURES

The applicant surgeon formally develops and implements clinical pathways that facilitate the standardization of perioperative care for patients undergoing surgery for complex endometriosis procedures. The applicant surgeon performs each surgical procedure in a standardized manner and uses a template for operative note dictation that ensures proper collection of data for surgical procedures.

5. SURGICAL TEAM AND SUPPORT STAFF

The applicant surgeon has nurses and/or physician extenders and an operative team trained to care for complex endometriosis patients and provides ongoing, regularly scheduled staff education in-services.

6. PATIENT EDUCATION

The applicant surgeon must provide all complex endometriosis patients with preoperative patient education, have a process for obtaining informed surgical consent and selecting procedures that are most appropriate for each patient's condition.

7. CONTINUOUS QUALITY ASSESSMENT

The applicant surgeon must collect outcomes data on all patients who undergo surgical procedures for complex endometriosis in SRC's Outcomes Database (or a similar qualifying database).

This is a summarized list of program requirements which is subject to change. For additional information, please contact SRC by emailing businessdevelopment@surgicalreview.org or calling 919.614.2623.
